## Raid boss difficulty (generations 1 and 2)

Estimator for the minimal number of players with the best counters at level 30, with "best friends" boost, and extreme weather. Raid bosses are considered to have their worst attack (WA). All bosses are tier 5 (they have 15000 HP), except Mewtwo which has 22500 HP.

- If boss raid has only simple weakness: minimal number of players =  $\text{ceil}(\text{Base DEF}/80)$
- If boss raid has only double weakness: minimal number of players =  $\text{ceil}(\text{Base DEF}/108)$

These formula do not take the base ATT into account, that influences the number of deaths and indirectly the number of deaths

## Raid boss difficulty (generation 5)

- Base statistics are computed using the same formula as for previous generation Pokémons.
- Moves remain unknown, but could be guessed based on the game on Game Boy. Remarks are based on these potential predictions.

Remarks Best Fire type Pokémon (better than Moltres). Excellent Dragon.

Best Electric type Poké-  
mon (although it has the  
ice weakness). Excellent  
Dragon.

Excellent flying type  
Pokémon depending on  
its moves

Will not have flying type  
moves. As Electric type  
Pokemon, it is as Electivire  
(with the ice weak-  
ness).

Will not have flying type  
moves. Could be an ex-  
cellent ground Poké-  
mon
